Find and Replace

Integrate application with Windows Explorer On Off

OK Cancel

Annotations:

- Click here to open folder browser dialog box. Select your back-up folder and click "OK".
- Set maximum number of history entries: search terms, replace terms and used directories.
- Clear all items in history.
- When you right-click in Windows Explorer, you should see "Find and Replace" as an entry in the menu.
- Selecting the "Find and Replace" option will open "Find and Replace" with that directory as targeted Folder.
